

## Aerial Cable Placement Tools

### Making Cable Placement Easier

With guidance from professional linemen, Jameson developed cable placement tools for fiber optic and coaxial cable installation and maintenance. Working from the ground or in the air, our tools make cable construction easier and safer.

### Corner Blocks

Corner blocks evenly distribute pressure on coax or fiber cable when pulling around corners. Steel side plates with straight base act as a strut for increased strength.

60 degree model offers more versatility than standard 45 degree blocks.

Steel side plates can be replaced in the field.

17" bend radius

Nylon axle bushings provide easier swivel and longer axle life. Adjustable keeper arm holds cable in place as it is pulled through block.

Aluminum rollers reduce friction, preventing potential heat build up and damage to synthetic rollers.

### Pole Mount Brackets

Designed to save vertical space on crowded joint occupied poles, brackets are ideal for mounting corner blocks.

Nylon strap and ratchet make brackets easy to use and bracket is contoured to fit pole for maximum stability.

Ratchet strap will not damage existing cables and weighs less than chain straps. Can be adjusted to work from right or left hand side for convenient operation.

**70-101**  
Use With Single Row  
Corner Block

**70-102**  
Use With Dual Row  
Corner Block

**70-104**  
Use With Quad Row  
Corner Block

| 90 Degree | 60 Degree | Corner Blocks<br>All Nylon Rollers |
|-----------|-----------|------------------------------------|
| 80-591    | 80-161    | Corner Block - Single              |
| 80-592    | 80-162    | Corner Block - Dual                |
| 80-594    | 80-164    | Corner Block - Quad                |

| 90 Degree | 60 Degree | Corner Blocks with One<br>Row Aluminum Rollers |
|-----------|-----------|--|
| 80-591A   | 80-161-A  | Corner Block - Single                          |

## Easy Rider™

Jameson overlap blocks are economical and lightweight, yet the high strength steel frame maintains cable alignment.

Easily snaps over a strand and cable package up to 2.25" in diameter. The 1.5" width provides convenient stacking when pushed by lasher.

Features a high, rounded bonnet to prevent block kicking under lasher. Stacks evenly. Non-binding roller axle allows rollers to "ride easily" and rotate smoothly.

Easy Rider® with  
Nylon Roller

## Versa™ Blocks

Versa™ Blocks offer the versatility of stringing cable at midspan on new and existing overlap construction.

Offers easy cable placement from aerial buckets or the ground when used with Jameson lay-up sticks and wire raising tool.

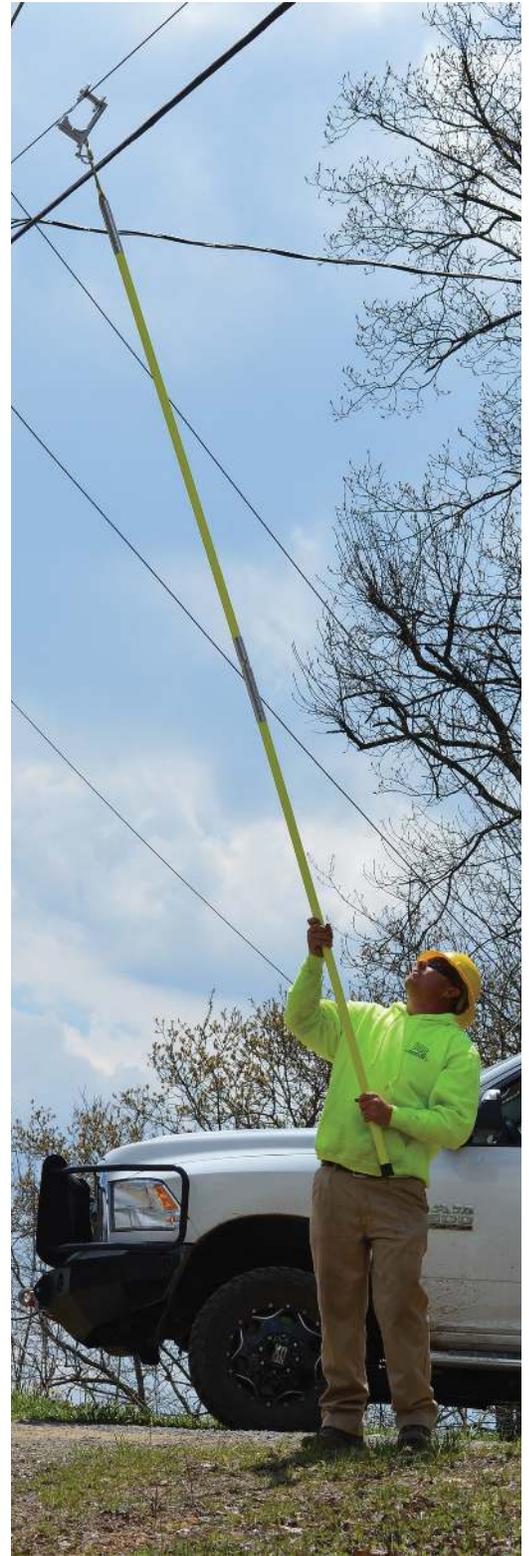

Low profile frame reduces cable damage as it passes through block and wide keeper arm accommodates large cable bundles when used as overlap block.

90-100  
Versa™ Block with  
Rubber Roller  
For up to 1.5" cables.

90-100A  
Versa™ Block with  
Aluminum Roller  
For up to 2.5" diameter cable or  
bundles and winch lines.

## Pole Tag

For outside plant pole record systems.

| Part Number | Aerial Tools                              |
