Brush Protection Guards
EZJAW-COVER

Pull-Pin Design
Optional-EZ-97

The **ECO-EZ** Streamline compression tool has a powerful 6 ton output. When ordering, choose from any of the six available heads that meet your needs which will be installed at the factory. If multiple jaws are needed they can be replaced fairly simply by removing the snap ring on pin. The swivel head design allows the jaws to rotate to 180° for operator convenience. No need for another battery system. This tool operates on the same 14.4 volt battery used in all of the Huskie ROBO Tools. Just like the rest of our battery tools, energized lines will not effect the operation or performance of the tool.
