HuskieToolFacts

Specifications

Weight	120 bs. with Oil
Gas Tank	3 Pints
Max Pressure	10,000 psi
Power Output	6 HP
Oil Delivery @ 100 psi	480 in ³ /min
Oil Delivery @ 10,000 psi	55 in ³ /min
Oil Capacity	5 Gallons
RPM	3,600

Features

- Four Way Valve Allows for Single or Double Acting Capacity
- Standard Screw Type Male and Female Couplers

RC-5
Optional Roll/Carry Cage

The **HPG-4** is a self-contained high pressure pump, with manual operation. It is equipped with a 6 HP Briggs & Stratton engine. A four-way valve controls the hydraulic fluid direction for the advance and retract modes. One double acting tool can be operated or two single acting tools at one time. Connection to one port for single acting tools will work since the control valve will dump the fluid when shifted to the retract position. The pump is very compact and comes with carrying handles.

NOTE: When using any of these high pressure tools, always use 10,000 psi rated non-conductive hose (NC-16 series).
