Our high pressure, non-conductive **NC-SERIES** hoses and couplers are rated at 10,000 psi working pressure. The hose ends are covered with a thick clear jacket of heavy duty shrink wrap to reduce the risk of hose bursts at these points. They are also date coded during assembly. As a result of injuries sustained by operators via broken or damaged high pressure hoses Huskie has developed a replacement hose improvement program for our customers. Consult your representative for information. Our hoses come standard with 3/8" male/female couplers.

NOTE: FOR OPERATOR SAFETY WE RECOMMEND HOSE REPLACEMENT AFTER 3 YEARS.
