The SL-CB, the first of its kind in the electrical utility industry, is a battery powered cable bender. The SL-CB utilizes the pull-pin design, allowing technicians to change jaws from compression, to cutting, to cable bending. The SL-CB is just one of the many ergonomic solutions, provided by Huskie Tools, to help reduce strains and sprains associated with the daily tasks of a powerline technician. The SL-CB has several different settings, so the tool can be used on either secondary or primary conductor in a variety of sizes. Featuring a low profile, the SL-CB can be used in a variety of close-quarter environments; such as underground vaults, meter bases and substation applications and wherever cable bending is required.

**NOTE:** Contact cable manufacturer for specified cable bending radii and cable bending requirements.

### Specifications

<table>
<thead>
<tr>
<th>Specification</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Weight</td>
<td>14.4 lbs. with Battery</td>
</tr>
<tr>
<td>Size</td>
<td>7”L x 22”H x 14”W</td>
</tr>
</tbody>
</table>

### Bending Uses

- Underground Vaults
- Meter Bases
- Substation

### Bending Capacity

| Cable          | 1000 MCM Cu For Larger Cable, Consult Factory |

### Features

- New Pull-Pin Design for Quick Jaw Change
- Bright White, LED Lights for Working in Low Light Conditions
- Audible Bypass when Predetermined Pressure is Achieved
- Tested Up To 75kV
- 5 Year Warranty on Tool, Battery & Charger
